CITY OF INDIAN ROCKS BEACH

NOTICE TO PROPERTY OWNERS REGARDING SUBSTANTIAL IMPROVEMENT OR DAMAGE

If you are rebuilding your home after a storm, renovating, remodeling, or adding an addition to your home, here is information you need to know concerning:

The 50% RULE

If your home or business is below the 100-year flood elevation, which is determined by the information on your "Elevation Certificate", City of Indian Rocks Beach has flood damage prevention regulations that may affect how you repair, remodel, renovate or add-on to your building. If your home or business sustained structural and/or interior and exterior damage, or if you plan improvements, these regulations may affect how you rebuild. These laws are required by the National Flood Insurance Program to protect your lives and investment from future flood damage, and to minimize risks to life and property. Our community must adopt and enforce these laws in order for federally backed flood insurance to continue to be made available to our residents and property owners.

Please read the following information:

If a building is determined to be "substantially damaged" or "substantially improved," it must be brought into compliance with the City of Indian Rocks Beach flood damage prevention regulations, including elevating the building to or above the 100-year flood elevation.

- **SUBSTANTIAL DAMAGE** means damage of any origin sustained by a structure whereby the cost of restoring the structure to its "before-damage condition" would equal or exceed 50% of the market value of the structure before the damage occurred.

Note: The cost of the repairs must include all costs necessary to fully repair the structure to its before-damage condition.

- **SUBSTANTIAL IMPROVEMENT** means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50% of the market value of the structure before the "start of construction" of the improvement.

Note: The City of Indian Rocks Beach, following National Flood Insurance Program requirements, has the responsibility to determine "substantial damage" and "substantial improvement" and has implemented the procedures described on the following pages:

CITY OF INDIAN ROCKS BEACH

NOTICE TO PROPERTY OWNERS REGARDING SUBSTANTIAL IMPROVEMENT OR DAMAGE

1. The City of Indian Rocks Beach will determine the estimated Market Value of your structure (excluding the land) by using the Pinellas County tax assessor's valuation. If you disagree with this estimate of Market Value, you may hire a state licensed appraiser and submit a certified comparative property appraisal for the depreciated value of your structure to establish the estimated Market Value of your structure.
2. You (and your contractor) must submit to the City of Indian Rocks Beach a detailed and complete cost estimate of any combination of repairs, reconstruction, rehabilitation, additions, remodeling, alteration and/or improvements to your structure. The attached *Reconstruction/Improvement Cost Breakdown* must be completed and signed by the Contractor and Property Owner.
3. The City of Indian Rocks Beach will evaluate the cost of improvements or repairs and determine if they are fair and reasonable. As a guide, the City of Indian Rocks Beach will use the Building Valuation Data published by the International Code Council (ICC) for residential and other occupancies. Please note, that the contractor's and property owner's *Reconstruction/Improvement Cost Breakdown* is to be based on the actual costs of all repairs and improvements. Donated materials and labor must be shown at their fair market value. Pre-disaster prices and rates will be utilized for damage repairs. The cost of improvements or repairs does not include items not considered a part of the structure, i.e., plans, surveys, permits, sidewalks, pools, screen roofed cages, sheds, gazebos, fences, septic systems, etc. *Items to be Included* and *Items to be Excluded* are shown on Pages 12 & 13 of this Application.
4. If your structure is determined to be "substantially damaged" or "substantially improved", then an Elevation Certificate must be submitted to the City of Indian Rocks Beach for determination of the lowest finished floor elevation. Enclosed space used for parking, building access or limited incidental storage are not considered to be the "lowest (finished) floor".

If the lowest finished floor is below the 100-year flood elevation, the building must be elevated to or above that level. Additionally, all electrical and mechanical (heating and cooling equipment), bath and toilet rooms, laundry rooms, water heaters and finished areas must be elevated to or above the 100-year flood level. Only unfinished space used for parking, building access, and limited incidental storage is allowed below the base flood level.

5. Commercial, non-residential building plans using "flood-proofing" (in lieu of meeting the minimum elevation requirement) must be prepared and certified by a Florida registered professional engineer or architect. One foot of "freeboard" is required when floodproofing a non-residential structure.

CITY OF INDIAN ROCKS BEACH Reconstruction/Improvement Cost Breakdown

Property Address: _____

Owner's Name: _____

Address: _____

Phone Number: () _____ - _____

I Hereby Attest to the Following:

- The attached ***Reconstruction/Improvement Cost Breakdown*** prepared by my contractor lists all of the reconstruction, repairs and/or improvements proposed at this site.
- The materials, labor and overhead listed in the attached ***Reconstruction/Improvement Cost Breakdown*** constitute the entire cost of restoring the structure to its "before-damaged condition" and/or the entire cost of repairs, improvements, and additions to be constructed under this permit application.
- No other contractor has made or is under contract to make any reconstruction, repairs, additions or remodeling not included in the attached ***Reconstruction/Improvement Cost Breakdown***, except as listed here:

Additionally, I Understand:

- I am subject to enforcement action and/or fines if inspection of the property reveals that I have made repairs and/or improvements not included on the attached ***Reconstruction/Improvement Cost Breakdown***, or if the construction plans are altered to increase the scope of work without prior authorization from the City of Indian Rocks Beach.

- The grade of materials may vary as to the manufacturer but may not exceed the costs stated on the attached Reconstruction/ Improvement Cost Breakdown.
